

Sinclair Broadcasting's plans to air the Anti-Kerry programming is an obvious partisan maneuver being made on publicly owned airwaves, and I feel it is totally inappropriate to allow such blatant disregard for fairness and political balance.

This programming they intend to force their stations to air is not news, and was not created by journalists, but by filmmakers with an outright bias against one of the candidates in the highly charged political race. I would hope you would step in to delay such programming until the policies can be evaluated and judged properly, before the violation can occur and then be dealt with in the aftermath.

This is an issue that has enough public opinion that I hope will be carefully considered and given due process. Thank you.
